

### Thresholds

The options for the threshold section of a door outer frame include substituting the standard outer frame for a slim outer frame pvcu section, or alternatively selecting on of the low aluminium choices.

The standard GW aluminium section also the option to fit a wheelchair ramp extension to the threshold to comply with part M regulations.

All aluminium thresholds come in either silver or gold anodised finish and are face drained to ensure maximum efficiency. Gasket carriers are fitted to the underneath of the sash providing a watertight seal on the GW threshold.

Once you have chosen the style and colour of the windows and doors for your home, you then come to the key part of the investment in your property; **the hardware used**

Window and Door  
**HARDWARE**

# WINDOW HARDWARE

With the correct furniture, locks and hinges fitted you can rest assured that all components of your windows, doors will last the test of time whilst also securing your home against forced entry.

To prove this; we include all hardware in the comprehensive 10 year guarantee we give on our products. This is our commitment to you on their quality and security. This is in contrast to the majority of other companies who will only offer you the hardware manufacturer's 12 month warranty.

The reason we can do this is down to us using only the highest quality hardware available on the market today.

### Fab & Fix Window Handles

We use an offset instead of an inline handle this gives you extra clearance and allows easy access to the handle for simple operation and also ensures your fingers will not get caught when you close the window in the night-vent position. The simple button to release and auto-latching mechanism on this handle means your windows are locked as soon as the handle is moved to the closed position and cannot be forcibly be moved whilst the is in night-vent position. This simple feature ensures your security and for your peace of mind key locking will dead-lock the handle for any extended periods of time when your home may be vacant.

### MACO Shoot-Bolt

The market leading MACO Shoot-bolt is the latest generation of locks with a minimum of 6 locking points and the facility of a night-vent position. Ensuring your home is secure against forced entry and whilst also offering the comfort of ventilation when required.

### Securistyle Friction Stay

This market leading range of hinges will cover every option and requirement you may need in the operation of the window. From simple opening and closing to providing a restricted, fire escape or easy cleaning function you can rest assured your children are safe from falling whilst also providing an emergency exit or just making windows that are hard to access, simple to clean.

Casement Window Handles

All furniture is also suited to ensure your home will be colour co-ordinated with a wide range of colour options.

## MACO Hinge Protectors

This simple device provides additional security on the weakest part of the window, by simply locking behind each other when the window is in the closed position. In the event of an attempted forced entry they interlock and resist the hinges being forced apart and allowing intrusion.

MACO are so confident of this additional feature securing your windows against forced entry they are willing to pay £1000\* in the event of a break-in due to the failure of their products.

Your windows & doors are covered by MACO's unique MACO SECURE PLUS warranty that offers this guarantee but it goes much further than this.

You also get the added benefit of a 24hour 365 days a year call out service in the event of a product failure with a 2-4 hour response time in the event of an emergency. This will cover your windows & doors for the full 10 years of your guarantee and if you should move the MACO SECURE PLUS warranty can be transferred to the new owners of your property.

## MACO Multi-Trend Invisible Tilt before Turn

By using the concealed hardware we ensure there are no surface mounted hinges to foul on your blinds or curtains which give you neater sightlines. Also if the window is situated in a deep reveal it will still open to 90° without catching or being restricted by the plaster line.

This simple and easy to operate hardware also incorporates a sash lifter and miss-handling device to ensure the smooth action and longevity of your window and with the addition of the iS hardware it will also fall under the MACO SECURE PLUS umbrella.

\*up-to £1,000 home insurance excess. Installers must be registered MACO SECURE PLUS members

## Fab & Fix Tilt & Turn Handle

This robust handle is designed specifically for use with the Tilt & Turn windows. Its style and colour co-ordinated into the rest of our furniture range and its simplicity offers an auto-latching function with a key to deadlock.

We can also offer the Fab & Fix Tilt before Turn handle which is design specifically upstairs windows with child safety in mind. The handle auto-latches with a key to deadlock but in the unlocked mode the handle will only open to the tilt function of the window for ventilation. The key then needs to be used again to allow the full opening of the window.

# DOORS HARDWARE

## Fab & Fix Door Hardware

The entrance to your home is where first opinions are formed and this complete range of suited hardware compliments the rest of our range, ensuring the continuation of quality and elegance throughout.

This range of hardware is not only designed to enhance your home but also built to last as long as your doors. All the door handles have built in return springs to ensure they stay straight and do not droop and the letterboxes have been designed with internal gaskets to keep the weather outside your home.

## MACO Protect Door Locks

The Protect door lock has been designed to fulfil two purposes, to keep intruders out and also a lifetime of use. With this in mind the lock incorporates steel hooks and linear bolts at the top and bottom of the door with a soft closing latch and a centre deadbolt which is secured by the key. This ensures the door is secure and additionally incorporated into this are two locking cams to compress the seal and keep the door weather tight and draft free.

You also have the options of a secondary dead lock independently operated by a separate key at shoulder height to stop young children opening the door and also the Entry Guard system which operates as a security chain to stop the door been forced open when answering but is also disengaged automatically by use of the key from the outside.

All of these locks comply with the MACO Secure Plus Guarantee and mean your doors are covered by this extended warranty for 10years.

## MACO Protect Eurocylinder

Forming the key part of your door security is the Euro cylinder and is normally overlooked by most home owners but it is a fundamental part of your door security. If this fails or is broken into your home is vulnerable to intrusion.

This Euro cylinder has been designed to combat all known types of attack.

Anti-Drill, Anti-Pick, Anti-Screw, Anti-Bump & Anti-Snap, these five levels of protection means your door is guaranteed against forced entry by the MACO SECURE PLUS. These are available in brass or nickel finish, keyed alike on French Doors and also a thumb turn option.

## SFS Door Hinge

The door hinge is an integral part of your door; supporting it through its lifetime of opening and closing and allow its continued smooth operation whilst always being on show.

The SFS door hinge is Secure by Design from its manufacturer and is also neat and unobtrusive and moulds into the lines of the door. This hinge is standard on MACO SECURE PLUS doors.

We also offer optional Flag Hinges.
